

We Believe in Quality Products

A&K Pharmaceuticals has a wide range of products for both Livestock and Poultry. Our core values; Quality, Integrity, Respect, Excellence, Innovation, Safety and SMART Work are the keys to our organization's increased profitability and efficiency.

1. Poultry Division

We provide a diverse variety of drugs that prevent infections, maintain health and cure diseases.

Poultry- A Dynamic Sector

The poultry sector is an important and vibrant segment of agriculture in Pakistan with a significant contribution to the national GDP (1.3%). In Pakistan it, one of the well-organized sectors, is playing an important role in bridging the gap between the supply and demand for protein. In the last few years, poultry has been the fastest growing sector in animal production and has emerged as a source of employment for more than 1.5 million people.

Our Services

A&K Pharmaceuticals has best team specialists in all aspects of Poultry production, nutrition and health. We provide practical step by step assistance to the Poultry farmers through our team's ardent endeavors. We provide ultimate solutions to the problems of Poultry industry related to Feed & Water Hygiene, Gut Health, Disease prevention and Meat & Egg Quality. We manufacture a wide variety of Oral Liquids and Oral Powders including Antibiotics, Stress Relievers, Growth Promoters, Nutritional Supplements, Dewormers, Hepato/Renal Protectants and Flushers for all species of Poultry i.e. Broiler, Layer, Breeder, Turkey, Ostrich and Fancy Birds.

2. Livestock Division

We provide a wide range of medicines to ensure animal health and productivity.

Livestock- An Emerging Sector

Over the past decade, animal husbandry has become the fastest growing sector in terms of income growth and qualitative change due to increasing food demand. In Pakistan, it contributes about 56.3% of the value of agriculture and nearly 11% to the agricultural gross domestic product (AGDP). Being the backbone of the agriculture sector in Pakistan, it enhances economy by providing draught power, valuable organic animal proteins and its by-products (bones, mohair, hides, skin, manure, wool, etc.). Milk is the single most important commodity in this sub sector. Livestock sector requires macroeconomic preferences for the economy of Pakistan and the vigorous development of rural economic growth.

Our Services

We manufacture a wide variety of Injectable Solutions, Drenches and Oral Powders including Antibiotics, NSAIDs, Stress Relievers, Growth Promoters, Nutritional Supplements, Dewormers, Metabolics and Hepato/Renal Protectants for Bovines, Caprines, Ovines, Equines and Camels.

1. Nutraceuticals Division

We provide a dynamic variety of HEALTH CARE PRODUCTS for Animals as well as Humans.

Health Essentials

Meeting nutritional requirements of Livestock & Poultry is extremely important in maintaining acceptable performance through supplementation program that corrects deficiencies in basal diets. Livestock & Poultry may have health problems resulting from substandard quality water. Good nutrition can increase feed efficiency and the rate of gain in animals. Animals/Birds must be fed diets that meet their needs. If their needs are not properly met, the animals/Birds won't grow, reproduce, or produce milk, meat & eggs, and they could possibly die. That's why; there is an increasing trend of nutritional products usage.

Our Services

A&K Pharmaceuticals has been successful in its ventures to manufacture value added nutritional products through sustained efforts. We basically focus on overall quality and safety of our value additions in form of health enhancers. We manufacture nutritional products in Oral Liquid and Oral Powder forms including Appetizers, Stress Relievers, Expectorants, Growth Promoters, Multi Vitamins, Liver Tonics, Renal Tonics, Flushers and Vitality Enhancers for Animals and Humans.

2. A&K Feeds – Cattle & Poultry

We provide feed to optimize the performance of your Animals and Birds.

The Basics of Livestock & Poultry Farming

Pakistan has an excellent wealth of animals. It needs to increase its milk and meat production at the rate of 6 to 9 per cent annually, to keep up with the increased demand due to population growth, urbanization and increase in income.

Our Services

A&K Pharmaceuticals is in a strong commitment to farmers in running successful and profitable business by consistent services. For the sake of this objective, we have a team

of experts that is mandatory to this harmonious coordination. Our team, including scientists, veterinarians and nutritionists, provide an innovative insight into production to achieve successful and profitable Poultry & Livestock farming. We provide solutions in the form of Cattle Feed (Wanda) and Poultry Feed that are well adapted to practical Livestock & Poultry farm operations.

3. Quality Control & Quality Assurance

Our Pharmacists, Molecular Biologists and Medicinal Analysts are manufacturing the products through increased potency and specificity and ensuring a safe provision of medicines. The main goal of our organization is to provide drugs that prevent infections, maintain health, and cure diseases. We have certifications from regulatory bodies that monitor drug safety, patents and quality. We have well equipped quality control laboratory having all the instruments imported from Germany and France to lead with quality control checking of products.

4. Research & Development

Our organization is based primarily upon the scientific research and development. Our R&D department involves the discovery and development of new drugs to treat and prevent a wide range of health problems. In future, we are looking forward for modern scientific and technological advances to accelerate the development of innovative products with improved therapeutic activity and reduced side effects. We provide solutions from our research and development commitments to address current and emerging problems in the field.
